Bu proje Avrupa Birliği tarafından finanse edilmektedir.  
هذا المشروع تم تمويله من قبل الاتحاد الأوروبي

## Project Details

School Name: Esenler Vocational Training Centre

Project Name: Always Being One

## Purpose

With our project, we tried to reveal the importance of cooperating and making efforts for common well-being. We aimed to serve people who have difficulty in accessing services such as hair, beard, nails, skin care, etc. to contribute to their well-being and add joy to their lives. We also targeted to improve the professional development of the apprentice students who served them.

## Target Audience

The target audience of our project consists of apprentice students and teachers in our school, master trainers with whom we are in close contact, hospice nursing home staff and its guests, children and young people.

35 apprentice students,  
5 teachers, and 2 school staff  
worked for the project;

- 20 hospice nursing home guests were given haircuts, hair and nail care, skin care and make-up,
- 35 children/young people were given hairstyle design and haircut services.

## Collaborations

Atasehir Hospice Nursing Home Staff

2 Persons

Atisalanı Secondary School Staff

2 Persons

We realized that there are people around us who have difficulties in accessing personal care services, and we decided to conduct a project in this regard, thinking that it would be a good cooperation for our students and the society.

As students and teachers in our school, we held meetings for exchange of ideas on how to provide personal care services for people in need and how to reach them.

By conducting institution-based research, we have determined that there is a need to provide support for personal care in Atasehir Hospice Nursing Home and Atisalanı Secondary School next to our school.

Together with our volunteer team, we carried out 3 activities, including haircuts, hair and nail care, makeup and skin care services.

We have witnessed the happiness of the people we served, and we have realized the importance of sharing and being one together. By using our professional skills, we have strengthened our muscles to do good for our society.

## What do beneficiaries and practitioners think about the project?

We have become a link in the chain of goodness, which made us so happy.

This project showed us that there are a lot of people around us who need social support and remembrance.

With this project we have implemented, we have shown that life is common. Life is beautiful when shared. Troubles and loneliness diminish when shared. These thoughts have settled in all of us.

This work we conducted has been very good for all of us, and the positive comments we received have revived our hopes.

## Recommendations for implementing and improving the project

- Disseminating cooperation and sharing societal activities in apprenticeship training
- Establishing a system that matches those in need and those who want to provide voluntary services

- Involving other occupational groups in the processes
- Addressing solidarity, charity, volunteering and active citizenship issues in lessons

- Sharing the activities with large masses
- Inviting new volunteers to the applications in all processes
